

Year 1 Hygiene Experiment

After 5 weeks

This piece had been touched with clean hands and sealed in a bag and has just started to have green mould grow at the top.

This piece had been touched after the child's hands had not been washed. Green and black mould has grown.

This piece shows the importance of washing your hands after going to the toilet. The bread has turned into liquid with lots of different types of mould.

**Whole School Attendance: 95.55%**

**Winning Class: Oak with 100%**

Attendance

Whole school attendance for the last week before half-term was 95.55%.

Our star class was Oak who achieved a superb 100% attendance. Brilliant!

Not far behind in second place came Pine with 99.46% and in third place were Fir on 98.86%. so well done to both those classes.

Once again the last term of the school year seems to have rushed up. Attendance needs to be as high as possible for the children to make their maximum progress in all aspects in school .

Let's hope for a really good term!
